MORE THAN 200,000 Persons

Bear testimony to the Wonderful Curative Effects of

Dr. Joseph Walker's

California

VINEGAR BITTERS,

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier.

FOR INFLAMMATORY AND CHRONIC RHEUMATISM

AND GOUT, DYSPEPSIA OR INDIGESTION, BILIOUS

AND COLIC, AND ALL AFFECTIONS OF THE BLOOD,

LIVER, KIDNEYS AND BLADDER, THESE

BITTERS HAVE BEEN MOST SUCCESSFUL. Such Diseases

are caused by VITIATED BLOOD, which is generally

produced by derangement of the digestive organs.

Cleanse the vitiated blood, whenever you find it

impurities bursting through the skin in pimples, eruptions

or sores, cleanse it when you find it obstructed and

and singular in the veins; cleanse it when it is foul, and

your feelings will tell you when. Keep the blood healthy

and all will be well.

CURES AND COMFORT FOR

THE BED-RIDDEN.

—BY

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving

during old sores, wounds, bad legs, ulcers and eruptions

of the skin, when rubbed on the surface it penetrates and

purifies each tissue on its passage, and exerts the

most wholesome influence over the internal structure

It heals by cleansing all animal fluids with which it comes

in contact, and thereby promotes a sound and permanent

cure.

Gout and Rheumatism.

This sufferer from the terrible pains of rheumatism and

gout this ointment will prove invaluable. After treatment

with warm water the soothing action of this Oint-

ment is most remarkable. It seems at once to loosen in-

flammation, ease pain, reduce the swelling, restore natural

circulation, and expels the disease. For the above com-

plaints Holloway's Ointment and Pills are infallible.

His class of diseases may be cured by rubbing the

Ointment, three times a day, upon the throat chest and

back of the patient. It will soon penetrate and give im-

mediate relief. In all stages of influenza, colds and

bronchitis, this treatment may be followed with efficacy

and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and

Scurvy.

This Ointment is a certain cure for Ringworm, Scrofula

or King's Evil, and the most inveterate skin

diseases to which the human race is subject. They can

not be treated with a salve or more speedily remedied than

Holloway's Ointment, assisted by his celebrated Pills,

which act powerfully on the constitution and so purify

the blood that these disorders are completely eradicated

from the system, and a lasting cure obtained.

Dropsical Swellings.

Swells of this dangerous and stealthy complaint

frequently creep upon us by night, and are not taken

until they begin to swell. The cause of the swelling

is looked for in the liver and stomach, therefore set

work early by taking Holloway's famous Pills ac-

cording to the printed instructions and rubbing the Oint-

ment very effectively over the pit of the stomach and

eight side where those organs lie. Most dropsical cases

will yield to the combined influence of the Oint-

ment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body

and mind, these delicate constitutions from the know-

ledge of the most delicate friends. Persons suffer for

years from Piles and internal inflammation, which they

may cure without the annoyance of explaining their

condition to anyone.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if the

urine be well rubbed twice a day, into the small

of the back, over the region of the kidneys to which it will

penetrate and in almost every case give im-

mediate relief; but perseverance will be necessary to effect

a cure

Up and Doing.

We were once told by a lady, whose garden was the most bright and beautiful in the neighborhood, that, at the end of every summer, before the flowers faded, she took a walk round with her head-gardener, and there and then arranged, in every detail, how the beds should be laid out and planted in the ensuing year, and directing the thinning out of shrubbery wherever it had attained undue rankness. It is now near the end, if not of the year, at least of "the season," and there is a remarkable apportionment of coincidence in the fact that the Governor is at the present moment taking a walk round the garden of state with his head-gardener, let us hope, with some practical results. Not to pursue the figure any further, it is time for the drowsy people to awake to political life and earnestness. Earnestness! a new word in politics. And why not earnestness? Is it a thing impossible that men should pursue the aims and objects of public life with the same zeal, the same seeking, the same intensity of purpose, as they bring to bear upon private business? Is it any argument against the introduction of earnestness into our political creed that it is a new tenet? Have we not had enough, and more than enough, of *laissez faire* and of that *diletantism* which will not be at the trouble to investigate or question the propriety of things, but is content to take their existence for granted, sheltering itself from the charge of laziness behind the easy-going proverb which bids us "live and let live." There are many things in our political economy which ought not to live! It is greatly owing to this indifference, this indolence to earnestness of action in political life, that the affairs of the Colony are in such ill condition, that public sentiment is in such a state of unhealthy inertia. Like Wilkins Micawber, the great bulk of the colonists have, we fear, been waiting in a sort of lackadaisical spirit for something to turn up to their advantage, for some power to do for them that which, as a community, they should do for themselves. Thus have we, as a Colony, been listlessly drifting with the tide until we have come uncomfortably near standing. We would not want the people to become politicians in the demagogic sense, but in that sense which will lead every colonist to feel himself an integral part of the responsible whole, a member of the body-politic, who has a distinct duty to perform; in that sense which will lead him to apply himself sufficiently to the study of the country, its capabilities and wants, its public men and institutions, to enable him to discharge the political duties resting upon him with intelligence, firmness and effectiveness. The answer to much of this will doubtless be that, deprived of representative institutions, denied any practical share in the management of public affairs, the Colonists have been and are politically powerless—dead! In this there is much force of truth. It is painfully true that a wretched political system has told sadly against the Colony. Its tendency has been to make Wilkins Micawbers of us all; to educate the people into a feeble, faithless, unselfreliant condition of mind, one which leads them to wait for a Government which has disinherited them of their political birthright to do very many things which were better done by themselves. This is one of the fatal consequences of our political system. Yet there are special reasons at the present moment why a people thus effeminized, politically demoralized, should make a great effort to shake off the fatal lethargy, this horrid nightmare that has been settling down upon them. By the iron and inexorable logic of events several great questions are now pressing themselves upon public attention, and upon the manner in which some of these questions receive attention and solution will greatly depend the future destiny of this Colony, as well as the wellbeing of the present and future generations. There is every reason to believe the new Governor is a man of sense and action. It will not take him long to form a tolerably correct judgment with regard to the situation; but upon the conduct of the people must, in a great measure, depend the important political changes now apparently hovering in the immediate future. It rests with the people themselves, in a great measure, to decide whether they are worthy of being reinstated in those political rights of which, we respectfully submit, no power on earth can constitutionally deprive British subjects living on British soil.

Napoleon.

Notwithstanding the assiduity with which the French press has sought to convince the world that Napoleon has not been ill, or if ill, not seriously so, most persons will prefer to think that the health of the Emperor is in a most critical condition. Indeed the eagerness with which it has been sought to make a different impression goes in the direction of proving a condition of things in this regard which recent telegrams tend greatly to confirm. There is, in fact, too much reason to feel that Napoleon has not many days to live, and the announcement of his death at any moment need not take the world by surprise. The death of Napoleon! What

a chapter in history—a chapter not impossibly written in blood—is implied by these portentous words! Sure to all and welcome by none, in whatever walk of life death seeks his victim he is ever the "King of Terrors."

"The knell, the shroud, the mattock and the grave, The deep, damp vault, the darkness, and the worm!"

Yet against his loathsome embrace none enjoy immunity.

"The sceptred king, the burden'd slave, The humble and the haughty, die; The rich, the poor, the base, the brave, Indistinct, without distinction, lie."

Or, as Shakespeare very forcibly puts it—

"Imperious Caesar, dead and turned to clay, Might stop a hole, to keep the wind away."

There is, perhaps, no man living whose immediate death would involve such serious and world-wide consequences as that of Napoleon III. There are, indeed, few men as great as he. The sudden death of Queen Victoria would plunge the greatest nation in the world, we might almost say the world, in mourning; but such an event, with all its melancholy associations and momentous consequences, would no more interrupt or even disturb the working of the governmental system of the nation than would the falling of a passenger from a railway train in full motion interfere with locomotion. The reason is obvious. The system is so complete, the constitution so strong that the shock would not even cause perceptible vibration, much less suspension. The same may be said, with more or less truth, of the United States—a country, by the way, that four years ago, afforded a thrilling illustration of the truth of our proposition—of Prussia, Austria, and even of Russia. But the case of France is essentially different, exceptional, perhaps, in this respect. The Government is so peculiarly a personal government hanging, as it were, upon a single hair, and that hair the flickering life of Napoleon, that it is greatly to be feared the dynasty and the man must even die together. With all Napoleon's anxious yearnings to the contrary, it is, we greatly fear, improbable that his son will be able to grasp, much less wield, the sceptre. Prince Napoleon possibly may. Next to his illustrious cousin, the Prince is probably the Frenchman who might with the greatest chance of success undertake the difficult task; but although standing well in the nation's eye, the probabilities would appear to be greatly against even Prince Napoleon being afforded an opportunity of trying his hand at governing France as his cousin has governed it. The nation is thoroughly tired of the present absolute form of government, and will not be disposed to submit to it an hour after the death of the present Emperor. Indeed it would, perhaps, not be too much to say, that the grief caused by the death of Napoleon would be considerably softened by the reflection that it would bring to the nation political emancipation.

A Smash Among the Brokers.

BULLING AND BEARING HAS PRODUCED MANY LAKE DUCKS.

For some time there has been an 'operation' progressing in certain Wall Street stocks which only those in the 'Ring' could account for. The stock chosen to operate on was not paying a dividend—hadn't paid a dividend for many months, and to all appearance didn't present any prospect of paying a dividend for months to come. The 'Ring' started the ball to rolling, and it rolled along like a snow-ball, increasing at every revolution until finally the stock ran up to sixty dollars. The brokers when asked what caused the stock to run up, would shake their heads and say, 'I don't know, but there is something in it.' The little game continued, and from week to week the stock continued to advance slightly. But some two weeks ago it reached its highest figure, and then dropped a few dollars. The brokers imagined that they could see something in the slight fall indicative of another advance, and rushed in and made purchases deliverable at fifteen days. They bought largely and left language that they had made a good thing. But yesterday the crash came; they were to receive their stock, and when they went to the morning session of the Board they heard ominous whispers which made them a little nervous. When the business of the session began they forgot all about the whispers until the fancy stock was called and there were no bidders for it. Their consternation, however, soon became alarming when some one offered the stock for \$5 per share. In a few moments it was freely offered for \$2 a share. After the Board had adjourned a meeting of the lame ducks was held, but as no reporters were permitted to be present, we are unable to give the transactions, and will have to permit the reader to exert his imagination. Some of the brokers are let in to the sum of \$2000 and others to the extent of \$20,000, and all of them are more or less injured. Besides this operation there have been several others which have caused considerable fluttering among certain operators; but we are not permitted to allude to them more definitely at the present time.—S F Call.

Toronto, September 7th.—Professor Foreman, of University College died, aged 83. The Dominion Rifle Match opened to-day, on Garrison Commons. Mr. Harland, wife of the Lieutenant Governor, fired the opening shots. Large numbers of volunteers are here from all sections of the Dominion. Arrangements are being made for the representation of Canada at future meetings of the British National Association, at Wimbledon.

The Boston Advertiser says that Mrs. Stone will not reply to the criticisms on her Byron scandal, until the comments of the English Press are received by mail, when she can deal with them altogether in one comprehensive, annihilating broadside.

Becher says that men count everything but their own besetting sins. They steer clear of these. Whoever heard a man say: 'O Lord, I am as proud a Lucifer—humble me!' or, 'O Lord, I am so mean and stingy that I can't enclose my fist—I pray thee make me generous.'

Fell's Coffee has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

LONDON, Sept 19.—It is estimated that eleven vessels were wrecked and several hundred seamen injured in the late gale.

MADRID, Sept 19.—It is rumored that Napoleon telegraphed to the French Minister at Washington that France desires that Cuba still be retained by Spain. Gen Prim, it is said, had a second interview with Napoleon. Lord Clarendon, the British Foreign Secretary, also had another audience with the Emperor.

A decree proclaiming the liberty of worship in Cuba will appear in the official Gazette to-morrow.

It is probable Serrano or Romen will be sent to Cuba to resolve on the spot the question of administration.

The embarkation of reinforcements to Cuba has commenced. It is asserted that Admiral Topete will command the fleet.

The marriage of the Duke of Genoa with the daughter of the Duke de Montpensier is proposed.

FLORENCE, Sept 21.—It is officially announced that the commission appointed to investigate into the grist mill riots have reported in favor of granting amnesty to all implicated.

NEW YORK, Sept 22.—The Herald's special from London says the ritualists (clerical and laymen) are just now deeply excited over the contents of letters of Pope Pius, in which His Holiness repudiates the idea of persons not in full communion with the Catholic Church attending the Ecumenical Council at Rome and taking part in the proceedings. Puseyites or Ritualists will not be allowed as delegates; they must belong to the Holy Mother by profession and Baptism.

Eastern States.

NEW YORK, Sept. 20.—The Captain of the ship Southampton, from Tampatepec and the west coast of Mexico, reports that between lat. 52 50 south, long. 46 west, he saw a hundred very large icebergs, one from 7 to 8 miles in length, and from 3 to 4 hundred feet in height.

California.

SAN FRANCISCO, Sept. 21.—Gold in New York to-day 137 and 137½.

Flour—Local millers have to-day marked down prices 1½ cents per bbl.

Wheat—Good shipping, \$155; fair middling \$1 30@1 45; choice \$1 60@1 65.

Barley—Dull, 75 to 95 cents.

Oats—\$1 25@1 30.

Second Dispatch.

California.

SAN FRANCISCO, Sept 23.—Gold to-day 141½@143½; wheat, 170; flour unchanged.

SAN FRANCISCO, Sept. 24.—Bark Atlanta, 18 days from Kodiac.

The fluctuations in the gold market has caused great excitement in this city to-day. New York quotations opened at 150½; 11 a. m. 150½; 1 p. m. 135; 2 p. m. closed at 133½. The banks were besieged by persons to remit gold transfers to New York; but the banks refused to accede to the demands, as the result would have been to strip this market of its present limited circulating medium. Wells, Fargo & Co alone released over a million of dollars in shipments.

Arrived, Sept 23.—Schr Summer, Cloud, Behnings Sea.

Eastern States.

NEW YORK, Sept. 23.—A Cuban filibustering party of 75 men embarked on a steam tug but failed to go to sea.

Europe.

MADRID, Sept. 22.—A Treaty of Commerce between England and Spain will soon be completed; the first subject of discussion before the Cortes will be the choice of a King; thus far the King of Portugal seems to be favorable looked upon.

CONSTANTINOPLE, 23.—The Porte persists in their demands on the Viceroys in regard to the power of the latter to raise loans, but he refuses to make any concessions.

North Pacific Railroad.

The following is an extract from the report of Edwin P. Johnson, Engineer in Chief of the N. P. R. R., made by him to the President and Directors of said road, in April 1869, from a final report of General Tillou's survey of the Cascade range of mountains in November, 1867. From this it will be seen that the new town of Tacoma on Commencement Bay is not far from the objective point where the main trunk will reach the Sound after passing through the Snoqualmie Pass, which latter appears to be adopted by the company as the most eligible for the construction of the railroad, and this own Tacoma is located on the south side of Commencement Bay, at the mouth of Puyallup river, about 20 miles south of Seattle.

"The Cowlitz Pass was found to be 4210 feet above the level of the sea, or about 1,100 feet higher than the Snoqualmie Pass.

"If the main line of the road east of the Columbia river is brought to that river at a point near the mouth of the Yakima, the distance from this point to a point on Puget Sound, twenty miles south of Seattle (Tacoma) it is found to be about 50 miles longer by Cowlitz, than by Snoqualmie pass line, while this latter has greatly the advantage in a less elevation of its summit, in a less extent of maximum grade, in curvature, and probable cost.

"It is supposed that the main line from where it meets the shore of the Sound as proposed, 20 miles south of Seattle (Tacoma) will, in its course north from that point make occasional, with navigable waters of the Sound at all eligible points. By such a location the important portions of the Territory will be best accommodated, the most possible will be made of the Land Grant, as the distance of 40 or 50 miles on the east side of the line of the road, will cover all the valuable territory on the western slope of the Cascade range, etc."

ENTERED Sept 24—Bark Zephyr, Trask, San Francisco. CLEARED Sept 24—Stmr Sco S Wright, Rogers, Astoria.

The Truth of the Matter.

Mr Bailey, of Comox, desires to contradict certain statements imputed to him in a paragraph which appeared in the evening paper of Thursday. The sloop load of produce which he brought down found a ready market, with the exception of a few tons of oats, for which he could not get even an offer! With respect to the steamer, Mr Bailey says that the language imputed to him (Mr Bailey) is altogether unjustifiable. Notwithstanding the popularity of the commander, however, the Comox settlers do complain, and we are disposed to think not without reason, about the infrequency of the steamer's visits and the high rates charged for freight and passage. The charge of \$5 ahead to Nacaimo and \$8 ahead to Victoria, for cattle and for passengers respectively, they consider altogether too high, and they think, and we think too, that if half these rates were charged, and if double the number of trips were made the steamer would at once treble the trade, with the best possible results to the settlements. Complaint, too, is made about a charge of 50 cents being made on the steamer for the most trifling article, thus placing a heavy tax, a prohibitory tax, in fact, upon small transactions. This whole matter, as regards Comox, is only supplemental to the more general subject, a few days ago. Nobody complains of Capt Clarke. Indeed, all unite in saying he is most obliging; but many do complain about the rates charged. As the matter now stands it costs more to bring produce and stock from our own settlements than from Oregon and Washington Territory—so much more as to give foreign produce an advantage in this market, a condition of things most discouraging to our farmers and highly prejudicial to the best interests of the Colony. As we said on a previous occasion, the steamer is a great boon to the settlements on the east coast; but with a reduced tariff and some other improvements already hinted at, she might be made a much greater boon.

PERSONAL.—We understand that Mr. C. Newton Young, who has retired from the Collegiate School, is about to open a private school in Nanaimo. We publish for the gratification of his many friends, the high testimonial presented to him by the Principal, the Rev. F. B. Gribbell, which he has justly earned by his ceaseless efforts in the discharge of those duties he has so ably performed during the past two years.

COLLEGIATE SCHOOL, VICTORIA. September 18th, 1869. Mr. C. N. Young has filled the position of Vice-Principal of this School for the last two years. I have ever found him conscientious and painstaking in his work, extremely gentlemanly and kind in his treatment of the boys. He has superintended entirely the Senior Mathematical class, and has faithfully discharged his duty in that as in every other branch of the work committed to his care. I have the greatest pleasure in stating this and in wishing him every success in life. Signed, FRANK B. GRIBBELL, Principal.

SUPREME COURT (In Chambers).—Stamp. The B. C. and V. I. Sawm 11 Co.—An injunction was granted some weeks ago to prevent plaintiff from issuing execution on the judgment recently obtained by him in the Supreme Court of Vancouver Island against the defendant, and, also, to prevent the plaintiff from suing on said judgment in the Supreme Court of British Columbia on the Mainland. The Chief Justice yesterday dissolved the injunction and the plaintiff must now sue in the Supreme Court of the Mainland before he can touch the property of the defendants. Nice state of affairs, is it not?

THE POUNDKEEPER.—A handle is found by the opponents of the Pound Ordinance in the alleged fact that the wrong man has been appointed to fill the position of pound-keeper. The office is one of considerable responsibility, and the incumbent has many opportunities, if so disposed, to act improperly. We cannot bring ourselves to believe that the charges we hear made are true; and the Poundkeeper will, no doubt, be eager to prove their falsity before a committee of the Council.

THE POUND ORDINANCE, so far as it relates to cows, continues to give dissatisfaction, and a laque of cow-owners is said to be forming to oppose the re-election of certain of the Councillors and the Mayor, in November next—the issue to be: exemption of kine from the operation of the Ordinance. Councillor Russell, of Johnson street Ward, is spoken of as a probable candidate in the cow interest for Mayor.

FIREMEN'S ELECTION.—After our item of yesterday was printed, Messrs Levy and Keyser withdrew as candidates for Assistant Engineer, and Mr Frank Richards consented to stand for the position against Mr. Vogel. Thus far Mr. Kriener is the only candidate for Chief.

THE CRICKET MATCH between the Charybdis and Victoria Elevens will be played at Beacon Hill to-day. Wickets will be pitched at 10 o'clock. An exciting contest is anticipated. The game will be played adjacent to the new ground.

WHISKEY SELLING.—A half-breed, named John Manson, was arrested by officer McMillan, on Thursday, charged with selling whiskey to whole-breeds. He stands remanded for one day.

THE GUNBOAT FORWARD.—This vessel will be sold on Tuesday, at 12 o'clock, by J. P. Davies & Co. She has no reserve price, and will be knocked down to the highest bidder.

ST. ANDREW'S CHURCH.—The latest number of the London Illustrated News containing a very faithful engraving of St. Andrew's Church of this City.

THE U. S. steamer Cyane will be due here to-morrow from San Francisco. She is bound for Alaska, and will probably bring a mail.

TENDERS are invited by the local Board of Education for Victoria School District, for sundry works required to complete the boys' schoolhouse, at the head of Yates street.

The boilers of the steamer Forward have been sold to a party across the Sound and will be placed in a steamboat now building there.

The steamer Emily Harris, having in tow the ex-gunboat Grappler, both laden with coal, arrived yesterday morning. Mr. Mark Bate came as passenger.

The steamship Active, from Victoria, reached San Francisco on Thursday night. The blow of Sunday last must have been comparatively light outside.

COAL OIL has advanced ten cents per gallon at San Francisco. So says a private telegram.

The steamer Enterprise, yesterday, carried away 20 passengers and 40 tons of freight.

THE CENTRAL SCHOOL has now upwards of 150 scholars.

THE Vancouver Coal Company have 9800 tons ready for shipment.

Female Dress.

ITS DECENCIES AND INDICENCIES CONSIDERED. HINTS FOR YOUNG WOMEN TO Ponder.

Young girls and riper matrons need not go about robed like Mahomedan fanatics; but let those to whom a high-necked and long-sleeved party dress would be a grievous affliction, content themselves with showing a modest rim of shoulder above their bodices. And let them not forget that well-turned white arms can be seen and appreciated without necessity of being exposed clear up to the arm-pits. No fair young girl ever lost anything in the estimation of men, whose opinion is worth having, by appearing with neck, shoulders and arms chastely veiled in delicate lace or muslin, instead of exposing them to the promiscuous gaze of a public assembly. We heard yesterday the jewel that we prize the most; we draw a curtain before the picture we devote upon; we hide our most sacred feelings in our hearts; we veil the shrine of the temple; we hedge the lily about lest its whiteness should be soiled; we want to cover up from other eyes the things that are the fairest, the dearest, and the most sacred to us.

Oh, woman! the most sacred thing, the fairest and dearest that man has in this world, is yourself. And I note that man's instinctive protest is the best guide in this matter.

And the feeling of the father, the brother, the lover and the husband, when his nature is unperverted, is that the arms that dress and enfold him, the bosom which is the dearest home his head can have on earth, should be as sacred as was the holy of holies in the days of the Jewish rites.

A woman's body is the temple of her soul, and her soul's outward symbol. What we want to keep pure, holy and undefiled, we do not expose to be a common bait for all the eyes of the world, pure and impure, to gloat upon.

The way in which men, as a body, act and express themselves when brought face to face with this dress reform question is inconsistent, unjust and ungenerous to women, and unworthy of themselves as gentlemen; they think because a woman is not their sister, or wife, or sweetheart, that it is no concern of theirs how she demeans herself in this matter of dress. On the contrary, they seem eager to help push her into a false position by hypocritical comments and phrases of hollow admiration, which are as false and bitter as Dead Sea fruit, if she will but stop to analyze the feelings from which they spring, the motives which prompt them. Too much familiarity breeds contempt. No one knows this better than the man who watches over the dress and deportment of his wife or sister with the stern jealousy of an Oriental, while at the same time he blandly encourages the wives and daughters and sisters of other men in every species of license.

Women do not always know—the young ones especially—that a certain dash and freedom in the style of dress encourages familiarity in the manners of men toward them. They too often follow the reigning mode without giving any thought to the meaning, or the effect it will have upon men's opinion of them. They feel wrong because they go in droves, and in droves they dare to judge in a style of dress for which any one woman would be ignominiously hoisted out of society, if she dare to appear in it alone, and upon any occasion for which it is not sanctioned by fashion.

If men would give up their abominable two-sided policy on this question and act towards every reputable woman whom they find masquerading in a disreputable attire, just as they would under like circumstances towards their own wives, daughters or sisters, as far as is consistent with surrounding circumstances, this mode of dress would soon be driven to its rightful home—the haunts of the profligate and fast woman.

"Life" IN PARIS IN 1869.—As an illustration of the habits and customs of Paris life in the year of grace 1869, the following anecdote is related in the Gaulois. At the celebrated restaurant at La Tete Noire, on the Place of St. Cloud, a party of gay roysters were at dinner.

A carriage, in which two ladies were seated, drew up opposite the door. One of the cocottes, looking out, recognised Queen Isabella II. attended by a lady in waiting. Madlle. Christiana, of the Bouffes, calling for pen and ink, instantly wrote on one of her cards—"Madame, we are dining in a private room, and would feel very happy if you would share the dinner of a party of actresses out on a lark. I promise you that the party will not be any the wiser.—Christian, who is looking at you from the window." The invitation was confided to a reluctant waiter, who was induced to give it to the Spanish Queen. Much amazed, Isabella II. handed the card to her lady-in-waiting, and mechanically looking up, saw her correspondent at the window, watching the result of her (I can use no milder term) insolence. The anecdote, if true, and it bears a certain stamp of veracity, is a photograph of society as it has become under the influence of licentious literature and the swelling flood of democratic independence.

A Skating Story.

It was just twenty years ago yesterday, says Reid Gordon, that a party of us fellows went over to Bergen Creek, on a skating match. The day was colder than ten ice-bergs all smoothed glass, and we made up our minds to have a heap of fun. Bill Berry was the leader of the crowd. He was a tall six-footer, full of pluck, and the best skater in all creation. Give Bill Berry a pair of skates and smooth sailing, and he'd make the trip to Baffin's Bay and back again in 24 hours, only stopping long enough at Halifax to take a drink. Well, we got to the Creek and listened our skates on, and, after taking a good horn from Joe Turner's flask, started off in good style. Bill Berry taking the lead. As I was telling ye, it was a dogged old day, and so we had to skate hard to keep the blood up. There was little air-holes in the ice, and every now and then we would come near going into them. My skates got loose, and I tried to fasten 'em. Just as I had finished bucking the straps I saw something shooting along the ice like lightning. It was Bill Berry's head. He had been going it like greased electricity, and before he knew he was into one of them air-holes. The force was so great as to cut his head off against the sharp corners of the ice.

"It's all day with Bill Berry," said I. "And all night too," said Joe Turner. Just as we had got these words out of his mouth, I looked at Bill's head, which had been going it on the ice, and all at once it dropped into another hole. We ran to it, and I heard Bill Berry say: "Quick, boys! quick! pull me out!"

I looked into the hole, and there, as I am a sinner, was Bill Berry's body which had floated along under the ice and met the head at the hole in the ice. It was so shocking cold, the head had frozen fast to the body, and we pulled him out as good as new. He felt a little numb at first, but after skating awhile he felt as well as the rest of us, and laughed over the joke. We went home about dusk, all satisfied with the day's sport.

About 10 o'clock in the evening, somebody knocked at the door, and said I was wanted over to Bill Berry's. I put on my coat and went over. There lay Bill's body in one place and his head in another. His wife said that after he had come home from skating he sat down by the fire to warm himself, and while attempting to blow his nose he threw his head into the fire place. The coroner was called last night and the verdict of the jury was, that Bill Berry came to his death by skating too fast.

MUSIC.—The undersigned informs the public in general that he is the only teacher of the Pianoforte who combines Thorough-bass and Composition with his instruction in music and singing, and is also the most experienced and legitimate Tuner of Pianofortes in the Colony. Terms—Pianoforte and Singing \$6 per month. Pianofortes tuned and repaired at \$3.00 and upwards. Music provided for Balls, Evening parties and Dinners.—DUBOY PALMER, Kase street, or at T. N. Hibben & Co's Book Store, Government street.—Mrs Palmer instructs beginners on the Piano at \$3.00 per month.

BOOK BINDING.—T. N. Hibben & Co have, in connection with their Book and Stationery Business, added Book BINDING, and the various branches connected therewith, and will add the mechanical parts and material necessary for meeting the requirements of the Colony, guaranteeing neatness, dispatch and satisfaction in all work entrusted to them.

We are assured that the popular remedy known as "MACAMOOKA" contains no mineral substance whatever, but that it is a simple extract from pure herbs, and can be safely used with impunity.

BUY IT AND TRY IT.—Russell's celebrated coffee. The best on the Coast. Warranted a pure and healthful beverage.

BREAKFAST.—EYES COOL.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The Civil Service Gazette.—"The singular success with which Mr. Russell's coffee has been prepared by his homoeopathic preparation of coffee has never been surpassed by any experiment. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected coffee, or Epps' Food, our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made strictly with boiling water, or milk, sold by the trade only in 12 lb., 5 lb., 1 lb. tins, unlined packets, labeled—JAMES EPPS & CO., Homoeopathic Chemists, London, England.

New Life!

When the mind and body are tired by over-exertion, or by long study, a bath, in which has been mixed a half-bottle of MURRAY & LAMMAN'S FLORIDA WATER, will re-invigorate the physical powers, and impart a delightful buoyancy and cheerfulness to the mind.

Be aware of the pernicious counterfeits; always ask for the Florida Water prepared by the sole proprietors, Lamman & Kemp, New York.

HOLLOWAY'S PILLS.—The changes of temperature and weather frequently operate upon persons who are weak and delicate, and most particularly in their diet. These corrective, purifying, and gentle aperient Pills are the best remedy for all defective actions of the digestive organs; they augment the appetite, strengthen the stomach, correct indigestion, and carry off all that is noxious from the system. Holloway's Pills are composed of vegetable and mineral matter, and on that account are peculiarly well adapted for the young, delicate, and aged, as the purgative medicine has remained in the past, so will it preserve it in the future by its renovating and invigorating qualities, and its incapacity of doing harm.

That freshness and beauty of complexion, so much to be desired, cannot be retained unless the female system is in a healthy condition and free from obstructions. For those who are peculiarly liable to the female skin diseases, or who are afflicted with the dews of womanhood, or the turn of life, no other remedy produces so beneficial results as Dr. Walker's Vegetable Pills. Their purifying effects add tone to the stomach, and invigorate the whole system.

Words of Weight for Wives and Mothers.

The superiority of HOLLOWAY'S STOMACH BITTERS over all other tonics and correctives, as a remedy for dyspepsia, biliousness, nervous affections, and all complaints of the visceral organs, and as a preventive of malarious disorders, is proverbial; but perhaps it is not so generally known that the ingredients of this famous invigorant and alterative exercise a powerful and most beneficial influence in that most delicate and dangerous class of ailments, of which so many thousands of delicate women are the patient, uncomplaining victims. The special trouble of the sex, commencing with the dawn of womanhood, and extending over a period of from thirty to thirty-five years, are as readily and certainly relieved by the operation of this admirable vegetable preparation, as any of the complaints common to both sexes, for which it is recommended as a specific. The attention of mothers is invited to its salutary effect in those peculiar cases of functional irregularity and irritation, which when neglected or misdirected, destroy the health and shorten the lives of so many invalids. There is no need for the power and danger of drugs, too often resorted to in such cases. The mild tonic and restorative action of the Bitters is all the assistance that nature requires in its struggle to overcome the difficulty, and the vast amount of suffering would be spared to the sex, if they placed implicit faith in this wholesome vegetable invigorant, corrector, and nerve, and discarded the pernicious nostrums advertised by ignorant and mercenary charlatans.

Auction Sales.

Lumley Franklin,

Medical.
French Medicines,
PREPARED BY
GRIMAULT & CO.
Chemists to H.H. Prince Napoleon
PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from the numerous medicines advertised in the public papers as being the most efficacious, as they are applicable only to a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospital or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s medicines.

DOCTOR LERAS'
(Doctor of Medicine.)
LIQUID PHOSPHATE OF IRON.
The newest and most esteemed medicine in cases of Chlorosis, Pains in the Stomach, Difficult Digestion, Dismenorrhoea, Anemia, General Debility, and to all ladies of delicate constitution. It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility, and to all who desire to preserve their health in perfect health, in all warm and relaxing climates.

NO MORE COD LIVER OIL!
Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the hospitals of Paris. It is a perfect substitute for Cod Liver Oil and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sticks, Muscular Atrophy, and Loss of Appetite. It regulates the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility, and to all who desire to preserve their health in perfect health, in all warm and relaxing climates.

CONSUMPTION CURED!
Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease, and the patient is rapidly restored to health. N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!
DR BURIN DU BUISSON'S
(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES
This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangement of the digestive organs, such as

Costitis, Gastralgia, Long and Laborious Digestion, Wind in the Stomach and Bowels, Emaciation, Jaundice, and Complaints of the Liver & Lungs

NERVOUS HEADACHE
NEURALGIA
DIARRHOEA, DYSENTERY,
INSTANTLY CURED BY
Grimault's Guarana.

This vegetable substance, which grows in the Brazil, has been employed since time immemorial to cure inflammation of the bowels. It has proved to be of great service in cases of Cholera, and is a preventive and a cure in cases of Diarrhoea

GRIMAULT & Co.'s
Syrup of Ferruginous Peruvian Bark.
Chemists to H. H. Prince Napoleon, 43 rue Richelieu, Paris.

This preparation has the great advantage of combining two most powerful tonics known in the medical world. Of perfect purity and agreeable taste, this Syrup is taken with pleasure and suits the most delicate stomachs. It is par excellence the FERRUGINOUS TONIC which should be administered to ladies of delicate constitution, and persons backward in attaining the age of puberty, and to all who are afflicted with a weak constitution, and is particularly employed in the treatment of Chlorosis, Anemia, Pale Complexion, Gastric, Gastric, Whites, Leucorrhoea, Debility, Want of Appetite, Poverty of Blood, &c.

No more Dyspepsia, Vomiting during Pregnancy, or Sea Sickness.
GRIMAULT'S ELIXIR OF PEPSINE.
Pepsine undergoes no alteration in this delicious preparation. It will consequently be preferred to Pepsine Powders or Pills. It is the digestive medicine par excellence and is at the same time a most agreeable table liquor. Messrs. Grimault beg to call the attention of the Faculty and the public to the fact that real pepsine is prepared in France alone. It is far superior to all others often extracted from the stomach of porci.

NO MORE COPAIBA OR CUBES!
Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These are rare and extraordinary cures of severe recent and chronic cases of private diseases. They are used in the hospitals of the celebrated Dr. Ricord, and found greatly superior to all other known mineral remedies and Copal and Cubes. The Injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.
Prepared by Lagnese, Chemist, at Bordeaux, possesses the balsamic and resinous properties of the Sea Pine. It is employed with success against affections of the Chest, Cold, Bronchitis, Catarrh, Asthma, Influenza, Hooping Cough, &c.

In Victoria—Messrs. LANGLEY & CO.

Phoenix Fire Assurance COMPANY.
LONDON.
ESTABLISHED 1782.
For insuring every kind of Property in all parts of the World from Loss or Damage by Fire.

THE PROMPTITUDE AND LIBERALITY WITH WHICH THE COMPANY's claims are always met by this Company are well known, and the importance of its relations with the public may be estimated from the fact that since its establishment it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire. The security offered to the public by the Phoenix Office is unlimited, comprising in addition to the large invested capital of the Company the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. An annual short time insurance is effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.
Prompt cash payment and full power to settle all losses and claims without referring to the Head Office in London.
Rates and Particulars of Insurance may be had on application to
THOS. C. NUTTALL, Agent, Government street, Opposite Masonic Hall. aul7

THE STANDARD
Life Assurance Comp'y
ESTABLISHED 1825.
Constituted by Special Acts of Parliament.

Board of Directors in British Columbia
VICTORIA:
THOMAS HARRIS, Esq.,
KENNETH MCKENZIE, Esq., Craigflower,
GUSTAV SUTER, Esq.,
THOMAS L. STAHLHUT, Esq.,
Medical Adviser—Dr. JAMES TRIMBLE.
Agent and Secretary to the Board—ROBERT BURNABY.

Division of Profits.
The Eighth Division of the Company's Profits is appointed to be made at 15th November, 1870, and all Policies now effected will participate.
The Fund to be Divided will be the Profits which have arisen since 15th November, 1865. aul7

ACCIDENT INSURANCE.
Travelers' Insurance Co.
OF HARTFORD.
Cash Assets over One Million
THE TRAVELERS' INSURANCE COMPANY insures against Death or Loss of Life, or Injury by Accident, in sum of \$50 to \$100,000, and \$3 to \$50 Weekly Indemnity, at an annual rate of \$5 to \$25 per \$1000 according to occupation and degree of hazard.
Small Cost and Large Benefits.
This insurance is valuable to all classes of men, and may be procured by thousands whose condition of health and purse will not admit of a full life policy. Its actual benefits are clearly shown by
Over \$875,000 Paid in Losses
among Nine Thousand Five Hundred Policy-holders in sum of \$5 to \$100,000, for death or disability caused by accident. No other Insurance Company in the world of the same age, ever returned so much money to its policy holders. While it has met these heavy losses promptly and liberally; it has not lost a cent of its earnings, and its necessary large expenses, and even its capital and surplus reserves to a round million of dollars, thus achieving a
Success in Accident Insurance unequalled in any Country.
Among the losses paid under accident policies were 134 deaths, losses on which the total premium paid were only \$2,397, while the same paid amounted to \$304,000, the policy-holders thus realizing
The sum of \$304,000 for \$2,397 in Premiums.
Prospectuses and every information can be obtained from the undersigned, who is fully authorized to accept risks.

J. R. CHING FUN—A CARD-EDITOR
BUTCHER CHONG FUN—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door to Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. I became awfully inflamed in my right lung, and my eyes became awfully inflamed. Deceiving of ever being cured, I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months' treatment I am a well man and feel that I cannot soundly thank him enough. His Chinese gentlemanly, graceful, and kindly, and that all my countrymen similarly afflicted may visit him and find relief. Respectfully,
JOHN HENTON, of Kentucky, U.S. aul7

Coughs, Colds, Rheumatism, Diarrhoea, Dysentery, and Fever.

THE "TIMES" OF INDIA, STATES
that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Penicillin. It is a remedy for the most common diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.
DR. J. COLLIS BROWNE'S CHLORODYNE—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davern, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See "Lancet," December 31, 1864.
DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from "Medical Times," January 12, 1865—"I am prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a bill'."
DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuritis, Rheumatism, &c.
DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London, as to its efficacy in Cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Nausea, Vomiting, and Dysentery. It fairly won my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."
It is necessary to warn the public against spurious imitations, which only ruin the pure name, and are deficient of the true properties of the only genuine, viz. DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the testimony of Freeman being the inventor was UNDISPUTEDLY UNTRUE.
Sold in Bottles, 1s. 12d., 2s. 6d., 4s. 6d., and 11s., by the Sole Manufacturer, J. T. DAVERN, 33, Great Russell Street, Bloomsbury, London. aul7

JUDSON'S
Simple Dyes for People
REGISTERED
are undoubtedly the most useful article ever offered to the public.

GUNPOWDER.
Sporting, Rifle, Cannon, Mining and Blasting.
Fresh from the Mills of
THE CALIFORNIA POWDER WORKS.
Extract from Report of Committee of Judges on Class 5 in the Sixth Industrial Exhibition of the California Mechanics' Institute, 1868.
Your Committee did not subject to proof the samples of powder exhibited at the Fair, but went to the different magazines, and themselves selected samples selected from the various samples thus obtained, embracing Sporting, Cannon, Muzzle and Blasting Powder, were subjected to divers proofs, the chief of which, and that upon which we most relied, was with the "Epprecht" mortar charged with a ounce of powder and a twenty-four pound ball.
After many days consumed in careful experiments—time which we freely bestowed, because of the great interest felt in the question both by the competing parties and the public—and after careful comparison of the results obtained, we found that all the powder submitted in test was of excellent quality. We also found that the superiority on the whole, rested with the California Powder Works, and therefore recommend an award of a gold medal to that company, and a silver medal to the Pacific Powder Mills.
Signed,
JOHN J. HALEY, HENRY J. PIPPY, Committee.

Fresh from the Mills of
THE CALIFORNIA POWDER WORKS.
Extract from Report of Committee of Judges on Class 5 in the Sixth Industrial Exhibition of the California Mechanics' Institute, 1868.
Your Committee did not subject to proof the samples of powder exhibited at the Fair, but went to the different magazines, and themselves selected samples selected from the various samples thus obtained, embracing Sporting, Cannon, Muzzle and Blasting Powder, were subjected to divers proofs, the chief of which, and that upon which we most relied, was with the "Epprecht" mortar charged with a ounce of powder and a twenty-four pound ball.
After many days consumed in careful experiments—time which we freely bestowed, because of the great interest felt in the question both by the competing parties and the public—and after careful comparison of the results obtained, we found that all the powder submitted in test was of excellent quality. We also found that the superiority on the whole, rested with the California Powder Works, and therefore recommend an award of a gold medal to that company, and a silver medal to the Pacific Powder Mills.
Signed,
JOHN J. HALEY, HENRY J. PIPPY, Committee.

JUDSON'S
Simple Dyes for People
REGISTERED
are undoubtedly the most useful article ever offered to the public.
Anyone can use them.
Anything can be dyed with them in a few minutes with the aid of the "Judson's Simple Dyes." Articles of clothing that have been put aside as faded and useless, may be made nearly as new, by merely following the simple directions appended to each bottle of Dye.
NAMES OF COLORS.
Magenta, Navy, Violet, Scarlet, Green, Blue, Pink, Crimson, Brown, Canary, Orange, Black.
PRICE SIXPENCE PER BOTTLE.
May be had of Druggists and Storekeepers throughout the world; or wholesale of
DANIEL JUDSON & SON,
19a Coleman street, London.
N.B.—A small bottle of color will dye 12 yards of bonnet ribbon.
SEE THAT YOU GET JUDSON'S SIMPLE DYES the wonderful popularity of which has caused numerous imitations, which are calculated to injure both buyers and sellers.
For our Catalogue of instructions how to use the color twenty different purposes.
"JUDSON'S SIMPLE DYES."
